

Simulate over

55

machine models!

Maximise your AE Simulator's training benefit by acquiring a range of Conversion Kits - Your own virtual training fleet!

Conversion Kits allow your Operators to be trained on a variety of different machine types and models. Their unique clip-on/off modular design lets you change the simulated machine type and model in less than half an hour.

Our 25 different Conversion Kits can simulate over 55 machine models. Immersive Technologies has an Operator training solution to meet your needs. Many of the Conversion Kits are currently available as stock. New Conversion Kits are constantly being developed.

Dozens of mines in 10 countries across the world now experience the benefits of an Immersive Technologies' Advanced Equipment Simulator (AES) for their Operator training.

Contact Immersive Technologies today to discover how you can fully utilize the benefits of the AE Simulator and Conversion Kits.
