LX3+ Equipment Simulator for Surface Mining

CONVERSION KIT® COMPATIBILITY

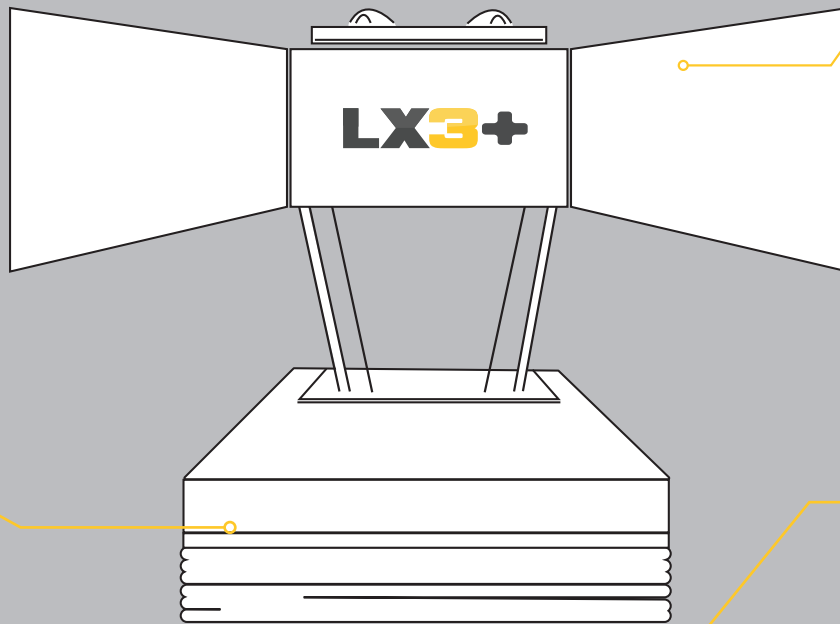

Compatible with all truck, light truck and light vehicle models simulated by Immersive Technologies.

INDUSTRY LEADING TECHNOLOGY

Shares the underlying technology of the industry leading PRO5, IM360 and LX6+ series.

MOTION PLATFORM

Low profile, accurate and safe motion platform provides realistic motion feedback and accelerates learning.

THREE FULL HD SCREENS

Wrap around display optimized for horizontal visibility, providing immersive views for road navigation, intersection awareness and situational decision-making.

TRAINER STATION

Streamlined trainer station provides the ability to monitor and trigger training events during a live training session.

COMPACT FOOTPRINT

Designed to support multi-unit classroom installations for scalable, cost-effective training environments.

Control and Site Familiarization

Vehicle Start-Up Procedures

Emergency Response & Compliance

Integrated Motion Base

The LX3+ delivers improved fidelity for truck and light vehicle operators with the addition of our proven motion base technology, providing a cost effective asset for truck and light vehicle training.

- Feel machine movements and terrain interactions
- Build muscle memory and spatial awareness
- Reduce time to competency
- Designed for safety, reliability, and flexibility

Operator Optimization

Sharpen operator decision-making skills with the same industry-leading training software as our PRO5 and IM360 series high-fidelity platforms.

- Advanced scenario-based training
- Support for training on over 950+ safety and mechanical events
- Integrated benchmarking and performance diagnostics
- Easily identify targeted upskilling opportunities
- Powerful reporting and monitoring functionality

The LX3+ includes a 12-month warranty. Conversion Kits are purchased separately.
