# LX6+ Equipment Simulator for Surface Mining

## LARGE VERTICAL FIELD OF VIEW

Visibility for digging, dozing and grading tasks with improved immersion.

## CONVERSION KIT® COMPATIBILITY

Compatible with all surface mining machines simulated by Immersive Technologies and shares the underlying technology of the industry leading PRO5 and IM360 series.

## MOTION PLATFORM

Low profile, accurate and safe motion platform provides realistic motion feedback and accelerates learning.

**LX6+**

## SIX FULL HD SCREENS

Wrap around display with wide field of view, providing visibility for truck, shovel and excavator operations.

## TRAINER STATION

Streamlined trainer station provides the ability to monitor and trigger training events during a live training session.

## COMPACT FOOTPRINT

Designed to support multi-unit classroom installations for scalable, cost-effective training environments.

### Early-Stage Training

### Compliance Training

### Recruitment & Selection

## Integrated Motion Base

The LX6+ offers immersive realism and operational flexibility, establishing it as a powerful asset for surface mining applications across diverse machine groups.

- Feel machine movements and terrain interactions
- Build muscle memory and spatial awareness
- Reduce time to competency
- Designed for safety, reliability, and flexibility

## Operator Optimization

Sharpen operator decision-making skills with the same industry-leading training software as our PRO5 and IM360 series high-fidelity platforms.

- Advanced scenario-based training
- Support for training on over 950+ safety and mechanical events
- Integrated benchmarking and performance diagnostics
- Easily identify targeted upskilling opportunities
- Powerful reporting and monitoring functionality

The LX6+ includes a 12-month warranty. Conversion Kits are purchased separately.
