

# SimControl2025.2

IMMERSIVE TECHNOLOGIES

EXPECT RESULTS

Get the most out of your simulator purchase with the latest version of SimControl - including vital updates and new functionalities.

## • Trainer & Platform Features

- Immersive Cloud: Smarter Access, Real-Time Insights: Access dashboards, bulk download reports, and monitor simulator health from any device.
- SimVitals Enhancements: Real-time health alerts and diagnostics.

## • Surface and Underground Mining Features

- Smarter Truck Training: On-demand brake tests. Customizable windrow proximity rules for safer operations.
- Loader & Excavator Updates: Enhanced brake configurations, and new operator errors for compliance and fuel discipline.
- Premium Site Visuals: Upgraded weather effects.
- Battery-Electric Ready: Helping operators transition confidently to new technology.

## • Improved Autonomous Haulage Systems

- New Events & Zone Locking
- Expanded System Support – New Versions and Machines
